Enersys cyclon Madagascar

Which EnerSys® Cyclon battery is best?

At high-rate and pulse discharges, EnerSys® CYCLON batteries offer the best performance value when compared with competitive product in applications at less than 100 minutes of discharge. Cycle life - Compared to competitive lead products (offering up to 200 full cycles), pure lead batteries provide 50% to 200% greater full cycle capability.

Are Cyclon batteries nonspillable?

The Department of Transportation (DOT) has classified all CYCLON batteries as "nonspillablewet electric storage batteries." Having been tested and found in compliance with section 173.159 (d) of the 49 CFR, subchapter 173.159, CYCLON batteries are exempt and unregulated regarding shipping requirements of DOT 173.159. As a result,

What are the advantages of Cyclon battery?

10. Shelf life - Pure lead batteries have an extremely low self-discharge rate, thus providing extended storage capability while maintaining high state-of-charge levels for dependable operation. CYCLON battery Single Cells and Monoblocs have a shelf life more than two times that of conventional lead batteries.

What is a Cyclon battery single cell?

CYCLON battery Single Cells offer UL 94V-0 flame-retardant packaging, thus allowing the mounting of systems in sensitive areas and human environments. Plus, the unique and flexible 2-volt CYCLON battery Single Cell allows you to design your system using an almost infinite number of packaging/design configurations. or "NONSPILLABLE BATTERY".

Do Cyclon batteries self-discharge?

It is important to recognize that the self-discharge rate of CYCLON batteries is non-linear. Thus, the rate of self- discharge changes as the SOC of the cell changes. In other words, the time taken for a cell to discharge from a 100% SOC to 90% SOC is very different from the time it takes to self-discharge from a 20% SOC to a 10% SOC.

Are Cyclon batteries good for fast charging?

The superior charging characteristics of CYCLON batteries makes them the power source of choice in demanding applications that require rapid charging. Conventional sealed-lead batteries are not suited for this type of charging where charge currents can be of the order of 2C10 or higher.

CYCLON"s greater volumetric power allows engineers to consider more energy-supporting features. Cycle life - Compared to competitive lead products (offering up to 200 full cycles), pure lead-tin batteries provide 50% to 200% greater full cycle capability. CYCLON product will deliver up to 300 cycles (100% DOD, C/5).

Cyclon®, Odyssey, Genesis®, SBS, XE®, Armsafe Plus®, MILPC, Nexsys, or Large TPPL. Sealed Lead Battery ... For information and emergencies, contact EnerSys Energy Products: Manufacturer's Name/Address: Environmental, Health & Safety Dept. at 660-429-2165: EnerSys Energy Products Inc. Canada Corporate Office 617 N. Ridgeview Drive: 3-61 Parr ...

Made from 99.99% pure lead, CYCLON battery plates are extremely thin, so they offer more surface area then conventional batteries and far more power. High purity acid is absorbed right into the Absorbed Glass Mat (AGM) plate separators, so the CYCLON battery provides leak-proof operation in any position.

High purity acid is absorbed right into the Absorbed Glass Mat (AGM) plate separators, so the CYCLON battery provides leak-proof operation in any position. In addition, the CYCLON battery's metal outer jacket offers extreme shock, ...

OSI Batteries is proud to be an Authorized Distributor and Value Add Center (VAC) for EnerSys® Cyclon Batteries. A rugged, reliable alternative to conventional lead alloy batteries. By housing a sealed, pure-lead, thin-plate design within an extremely rugged steel casing, CYCLON batteries outperform lead alloy batteries in a number of ways: ...

Las baterías CYCLON se pueden recargar en menos de una hora y funcionan notablemente bien en aplicaciones y temperaturas extremas: hasta el doble de capacidad a -20 °C (-4 °F). Una válvula de seguridad de 50 PSI permite que los gases escapen y se vuelve a sellar automáticamente para evitar una acumulación excesiva de gas o un fallo de ...

The CYCLON® battery Single Cell can be custom configured in virtually an infinite number f de sign.
