

How TEC is powering Tuvalu with renewable resources?

TEC has set a vision of "Powering Tuvalu with Renewable Resources" and this align well with the Tuvalu Government set target of 100% renewable energy by 2025. All the islands of Tuvalu are on 24/7 power supply and the access rate is 100%. The outer islands are powered by hybrid solar PV system with diesel generator on standby.

What is the energy sector development project for Tuvalu?

The objective of the Energy Sector Development Project for Tuvalu is to enhance Tuvalu's energy security by reducing its dependence on imported fuel for power generation.

What is Tuvalu's energy plan?

Tuvalu has two stated goals: o To generate electricity with 100% renewable energy by 2020 o To increase energy efficiency on Funafuti by 30%. The Plan is intended for use by the Government of Tuvalu (GoT), the Tuvalu Electricity Corporation (TEC), potential donors, community representatives and other relevant stakeholders.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Who uses the Tuvalu electricity plan?

The Plan is intended for use by the Government of Tuvalu (GoT), the Tuvalu Electricity Corporation (TEC), potential donors, community representatives and other relevant stakeholders. It is a working document and will be regularly reviewed and updated as new information becomes available.

How do I contact Esco power?

OverviewTuvalu's carbon footprintTuvalu Energy Sector Development Project (ESDP)Commitment under the Majuro Declaration 2013Commitment under the United Nations Framework Convention on Climate Change (UNFCCC) 1994Solar energyWind energyFilmography Renewable energy in Tuvalu is a growing sector of the country's energy supply. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location. It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Str...
