

What is Solarstone doing in Estonia?

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S. The factory can assemble 13,000 integrated solar panels per month.

How much solar power does Estonia have per capita?

Regarding solar power per capita, Estonia has emerged as one of the new leaders. The country is ranked 6th among 27 EU members, with 596 Watt per capita in 2022, jumping from 405 in 2021. With accelerated growth in recent years, it has the potential to reach an even higher mark soon.

Does Solarstone have a BIPV factory?

Solarstone launched a BIPV factory in Viljandi, Estonia. Solarstone unveils its state-of-the-art Building-Integrated Photovoltaics (BIPV) factory in Estonia with an annual output of 60 MW. The factory has the capacity to assemble 13,000 integrated solar panels per month.

Does Estonia have a good energy policy?

So far, it has been a key objective of Estonian energy policy. Being a Nordic country with less sunlight than in Western and Southern Europe, Estonia has achieved a solid place at the top with its 1,923 sunny hours in the year.

How many solar panels does Solarstone produce a year?

Solarstone unveils its state-of-the-art Building-Integrated Photovoltaics (BIPV) factory in Estonia with an annual output of 60 MW. The factory has the capacity to assemble 13,000 integrated solar panels per month. Annually, this supplies 6,000 homes with 10 kW solar roof installation, enough to power an average household.

Who makes Solarstone solar panels?

The new factory is backed by investments from Estonian-based companies Sunly and Biofuel. The Solarstone product goes beyond a standard rooftop solar panel. Their building-integrated photovoltaics (BIPV) serve a dual purpose as both a roofing material and an energy generator, turning sunlight into electricity.

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S.
