

J'avais notamment un doute sur la tension Voc des MAXA car il n'y avait pas le 75V des Sunbeam Tough. Ils produisent super bien. Tout s'est bien passé; et la techno Shadow optimisée; avec j'imagine des diodes entre certaines cellules, semble bien fonctionner ! ... Max System Voltage (incl. by-pass diode) 30V (80V) 30V (80V) 30V (80V) ...

Estonia Finland France ... All Sunbeam system modules are extremely thin, flexible and accessible. Thanks to the outstanding energy yield, they are perfect for self-sufficient energy generation on the go. Sunbeam system Tough + is the absolutely latest solar module technology. They impress with an outstanding performance per unit of surface ...

Sunbeam er et svensk selskap som er kjent for sine nyskapende løsninger innen solceller og solpaneler. De leder utviklingen med sine høypresterende produkter som kan håndtere de mest krevende omstendigheter. Deres solpaneler er lette, kan bøyges, er slitesterke og har den høyeste watt pr. overflate av de solpanelene som finnes på markedet.

SUNBEAMsystem maakt gebruik van de beste zonnecellen ter wereld: Sunpower(TM) Maxeon. Deze zijn gemiddeld 1,5 tot 2 keer zo efficiënt als de cellen in standaard glaspanelen, en garanderen dat zonnepanelen van SUNBEAMsystem de hoogste opbrengst per m² leveren.. Unieke Shadow-Optimized technologie

With the new carbon fiber model, Sunbeam system offers a resistant solar panel that can be attached very quickly and easily on an existing Sprayhood/Bimini. The fabric of a bimini is not stable and stiff enough to carry a normal flexible solar ...

Just like Sunbeam Nova, our system for flat roofs, Sunbeam Luna features a unique yardstick. This will allow you to mount the profiles at the right distance from one another in no time. Integrated potential equalisation
The potential equalisation is integrated into the clamps, and it is easy to connect an earthing wire to the profiles.
