

Who is Eswatini electricity company?

Terms of Use The Eswatini Electricity Company (EEC) is engaged in the business of generation, transmission and distribution of electricity in the Kingdom of eSwatini. Our technical expertise in the power industry is well recognised energy player especially in the Kingdom of Eswatini and SADC region.

Does Eswatini have a solar power plant?

The company currently has one solar plant, Lavumisa 10MW Solar PV Plant. The power plant, which tracks the sun from morning to sunset, generates a capacity of 13.75MW and contributes a guaranteed capacity of 10MW to EEC's power grid. There are several ongoing projects that are geared to improve Eswatini's citizens access to electricity.

What is the electricity supply industry in Eswatini?

The electricity supply industry in Eswatini is dominated by two state owned entities, namely the Swaziland Electricity Company (SEC), which is the monopoly transmitter, distributor and supplier.

Does Eswatini have access to electricity?

There are several ongoing projects that are geared to improve Eswatini's citizens access to electricity. The current access rate stands at 82%. Eswatini is ranked number 3 in the Southern African region on this measure.

What is energy development in Eswatini?

The energy development in Eswatini is guided by the National Energy Policy of 2018. Since then, the country's energy sector has been undergoing rapid transformation with the liberalization of the electricity sector to encourage private sector investment.

What is driving Eswatini's growth?

The biggest driver of growth in Eswatini's PV market is private PV projects. In 2022, Eswatini partnered with Frazium Energy to commission a new 100MW solar storage project with 75,000 PV panels, hoping to produce more than 100 million kWh of electricity a year and generate at least 200 jobs.
