

Every solar Botswana

Why should you choose solar World Botswana?

We offer top-notch solar solutions that are designed to perform reliably in all weather conditions, ensuring uninterrupted performance. Solar World Botswana is your ultimate destination for comprehensive solar energy solutions. Our mission at Solar World is to deliver dependable solar PV power plants that cater to all your energy requirements.

Does Botswana have solar energy?

Botswana has abundant solar energy resources, receiving over 3,200 hours of sunshine per year with an average insolation on a horizontal surface of 21MJ/m², one of the highest rates of insolation in the world. It is essential to take advantage of the abundance of this resource.

Does Solar World Botswana have a water system?

Solar World Botswana successfully revitalized and rejuvenated the water system at a resort farm located in Ranaka.

Which solar still is best suited for Botswana?

After years of research and development activities, the RIIC findings concluded that the Mexican and brick solar stills are the best suited for application in Botswana. The Mexican still consists of a moulded fibreglass basin of 1.6 m² base area to hold saline water and has gutters on two sides to collect the distillate.

Does Botswana have a good energy resource?

However, Botswana has another very important energy resource that is presently poorly utilized: that of sunlight. Anyone who spends even just a little time in Botswana always marvels at the sunshine and the long days of clear skies that roll one into the next for weeks at a time.
