

Expro energy Antigua and Barbuda

How much does electricity cost in Antigua and Barbuda?

This profile provides a snapshot of the energy landscape of Antigua and Barbuda, an independent nation in the Leeward Islands in the eastern Caribbean Sea. Antigua and Barbuda's utility rates are approximately \$0.37 U.S. dollars (USD) per kilowatt-hour (kWh), which is above the Caribbean regional average of \$0.33 USD/kWh.

What is Antigua & Barbuda's energy policy?

Antigua and Barbuda published a draft of its National Energy Policy in December 2010, with the dual goals of reducing energy costs by diversifying away from fossil fuels and driving development of new technologies and sectors.

Who owns the power in Antigua & Barbuda?

Under the terms of the deal, the Antiguan government will retain a 51% share in WIOC.¹⁰ Antigua and Barbuda's generation resources are owned primarily by APUA, with the remainder owned by the sole independent power producer (IPP) currently in operation-- Antigua Power Company Limited (APC); other IPPs are allowed but none exist to date.

Can a wind power plant be used in Barbuda?

Another case is the large wind energy potential on Barbuda, which could easily satisfy the local energy needs--the island is currently served by a 7.2-MW diesel power plant.²¹ Inter-connections to nearby islands could increase the potential benefits from this wind resource and spread them to other parts of the country as well.
