

What is the international dimension of Türkiye's energy strategy?

The fundamental elements that constitute the international dimension of Türkiye's energy strategy are:

1. To ensure the diversification of routes and resources in the supply of oil and natural gas, taking into account the increasing demand and import dependency, 2. To contribute to regional and global energy security, 3.

What is Türkiye National Energy Plan?

Türkiye National Energy Plan study has been developed in accordance with Article 20 of the Electricity Market Law No. 6446 entitled Supply Security, and Supplementary Article 2 of the Natural Gas Market Law No. 4646, and covers the period up to 2035, based on Türkiye's 2053 Net Zero Emission Target.

What is Türkiye's energy strategy?

The versatile structure of Türkiye's energy strategy and its energy import dependency brings international relations into prominence in this field. One of the main goals of Türkiye's energy strategy is to diversify routes and resources to strengthen its energy supply security.

How has energy fueled growth and development in Türkiye?

Energy has fueled remarkable growth and development outcomes in Türkiye. The economy's energy-intensity and the carbon-intensity of electricity production to date come with significant costs and risks. Transformative opportunities remain to be tapped in renewables, energy efficiency and electrification, building on remarkable recent progress.

What is the future of energy in Türkiye?

Transformative opportunities remain to be tapped in renewables, energy efficiency and electrification, building on remarkable recent progress. Approximately 70 percent of (gross) greenhouse gas emissions in Türkiye are energy-related, including from power, industry, transport and buildings.

What is the energy supply in Türkiye?

As of 2021, Türkiye's total energy supply was met by natural gas (31 percent), oil (27 percent), and coal (25 percent), while energy supply from wind, solar and other renewable energy sources accounted for 16 percent.

Turkey has prioritised security of energy supply as one of the central pillars of its energy strategy, including efforts to boost domestic oil and gas exploration and production, diversify oil and gas supply sources and ...
