

Finland mtu onsite energy

What is MTU Onsite Energy?

mtu Onsite Energy is one of the core brands of Rolls-Royce Power Systems. Under this brand, Rolls-Royce offers complete power system solutions including diesel and gas-based mission critical, standby and continuous power systems. In North America, mtu Onsite Energy generator sets are assembled in Mankato, Minnesota.

Where are MTU generator sets made?

In North America, mtu Onsite Energy generator sets are assembled in Mankato, Minnesota. The Power Drive location is capable of full-scale generator set testing and produces products ranging from 30kW to 3,250 kW.

Does MTU offer a generator?

MTU offers a line of generators to accommodate these needs. The power generator is a complete system mounted on a skid. However, it does require fuel and exhaust connection from the building. Because of the hard-piped connections these are often termed permanent installations. We keep an inventory of MTU generators.

When did MTU buy Katolight?

In 2007, mtu America's parent company--which operated as Tognum at the time of the sale--acquired Katolight Corporation, a generator set manufacturer and packager founded in 1952 in Mankato, Minnesota. One year later, Katolight was renamed as mtu Onsite Energy Corporation.

What does MTU stand for?

MTU stands for Motoren-und Turbinen-Union (Engine and Turbine Union). MTU assumed responsibility for engines ranging from 1,000 to 10,000 hp. In September 1994, MTU and Detroit Diesel Corporation entered into a cooperation. Detroit Diesel was founded by General Motors in 1938. At that time a GM Diesel Division existed.

Is MTU a Roll-Royce brand?

Mtu brand is part of rolls-royce. Mtu also offers customized electronic monitoring and control systems for its engines and propulsion systems.
