

Future energy enterprises Canada

What is the Energy Futures series?

The Energy Futures series explores how possible energy futures might unfold for Canadians over the long term. In addition to our own quantitative analysis, the CER consults with industry, various government and non-governmental organizations, and academia in developing Canada's Energy Future reports. Reports

Does Canada have Energy Equity?

Energy equity - or the ability to provide affordable, fairly priced and abundant energy domestically and commercially - also remains strong. And with a top ten ranking on the global Energy Trilemma Index, Canada is drawing from a position of power. Definition

How will Canada maintain economic prosperity in 2020?

Maintaining economic prosperity will be critical. The environmental and clean technology sector contributed \$67.5 billion to the Canadian GDP in 2020, and there is significant room for growth. Doing so will demand national alignment, with consideration of the country's diverse interregional resources and policy frameworks.

opportunities in clean energy for small business, particularly companies in low income areas. Annette is founder and President of Future Energy Enterprises, LLC (FutEE), a woman-owned clean energy consultancy firm founded in 2007. FutEE has a dozen staff in Illinois and California, including engineers, attorneys, policy analysts and economists.

Large-scale carbon-intensive fossil energy use is a source of current environmental degradation, a serious health concern in many urban areas, and a driver of global warming and associated climate change impacts [10], [11], [12]. Greenhouse gases (GHGs--CO₂, CH₄, water vapour, N₂O, and fluorinated gases) and other air contaminants have been ...
