

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

Other Solar Generator are cheaper and you might want to go for them but most of them are what China used in doing experiment. If you need something that will last long for you then go for our 1000watts JCNS Solar Generator
