

Germany home power solution

Does HPS home power solutions offer a hydrogen-based electricity storage system?

HPS Home Power Solutions AG has introduced a new version of its Picea system, a hydrogen-based electricity storage solution for residential applications. The 15 kW Picea 2 system offers 1,500 kWh of storage capacity. The company said it doubled the system output to meet the higher demand caused by the growing use of electric cars and heat pumps.

What are Germany's new energy regulations?

As of 2021, new regulations in Germany require all new homes to be designed as very low-energy buildings. Founded by Zeyad Abul-Ella and Henrik Colell in 2014, the Berlin-based company Home Power Solutions (HPS) provides off-grid power supply solutions to help new homeowners meet this requirement and transition to clean renewable energy.
