The demand for renewable forms of energy, such as solar, has never been greater. Our technology enables customers and utilities to harness energy efficiently-- wherever they choose to build. We are expanding the

Gibraltar solar panel field

possibilities ...

Based on thousands of quotes from the EnergySage Marketplace, the average home ground-mounted solar panel system costs about \$60,200 before incentives. But because most homeowners qualify for the 30% federal tax credit, you should expect to only pay \$42,140 upfront. Interest rates will increase the price tag if you choose to finance your system with a loan.
