What is Goal Zero?

Goal Zero was born from a belief that lack of resources should never limit human potential. We are inspired by a passion for adventure, respect for the planet, and a humanitarian heart and we believe we are inextricably connected to the communities, environment, and society to which we belong.

Facing panels south makes them more productive, especially when the weather features a bright, sunny day. However, if you're in the southern hemisphere, you should face your solar panels toward the north because the sun travels through the northern portion of the sky. ...
