

Guam energy solar

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

Does Guam have solar energy systems?

Until 2015, only a few off-grid photovoltaic systems (PV) and some distributed generation PV and small wind turbines were in use on Guam. Plans for several large solar farms have been announced. Guam has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010.

What does the Guam Energy Office do?

The Guam Energy Office, as a line agency within the Executive Branch, implements energy programs for the benefit of the island community using grants awarded by the U.S. Department of Energy - the State Energy Program (SEP) and the Weatherization Assistance Program (WAP).

How is energy consumed in Guam?

In Guam, the consumption of energy is heavily influenced by its remote location. Almost all energy is reliant on imports of petroleum products for use in transport and electricity. Guam does not have any domestic production of conventional fuels such as oil, natural gas, or coal.

This substantial allocation is the culmination of a formula grant application prepared and submitted by the Guam Energy Office (GEO). "This grant award follows the incredible announcement of \$62.4 million to Guam for Solar for All, further propelling our efforts toward a sustainable future. By focusing on reducing energy use, lowering ...
