

# Guam homemade solar panel

The great solar energy debate continues to rage. The prevailing opinion is that while it's ok in theory to attach solar energy panels to our roof, the upfront financial costs render it impossible for the average family. At first glance and without bothering to research the matter further, there seems to be more than a ring of truth to it.

For this, you need a high-quality battery, tailored to the needs of your homemade solar panel. To find the battery that best suits these needs, I would recommend looking at the linked article from [solarpowernerd](#). This ...
