Guernsey renewable energy systems holdings limited

Renewable Energy Systems Holdings Ltd. announced the acquisition of Australian asset management company Blueshore on Feb. 7. Blueshore provides commercial, technical and financial asset management services for solar and wind energy assets and also provides portfolio management services to investors in the Australian market, Renewable ...

The import cable alone does not meet the islands electricity needs when energy demand is at its greatest. The GJ1 cable can provide 100% of Guernsey's energy needs in summer and around 75% in winter, so the power station is still required as both a top-up for the winter peak periods and as a back-up when the GJ1 interconnector requires to be switched off for maintenance.

With nearly two decades of experience in the renewable energy sector--including offshore wind, tidal energy, and leadership roles at industry-leading companies--our Global Services Chief Operating Officer (COO), Hannah ...

Gavin's passion for renewable energy ignited at just 11 years old, when he saw his first wind turbine on the Isles of Scilly. This fascination with the innovation and technical possibilities, married with a strong commitment to environmental reform and social purpose has led him to create and drive forward our clear vision of a future where ...
