

Guernsey solar panels scheme

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Will solar panels help Guernsey charity?

A Guernsey charity which helps people with learning disabilities will be providing power for the community after fitting solar panels to its new centre. Grow Ltd said it and Guernsey Electricity had worked on the project to install 310 photovoltaic panels.

What is Guernsey Electricity?

Guernsey Electricity was adopted as the trading name in 1993 and became Guernsey Electricity Ltd in 2001 following commercialisation. Guernsey Electricity is the electricity supplier in Guernsey. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe, giving a secure, reliable and affordable source of energy.

Will Guernsey have a standby charge?

Charges for large scale renewable energy set ups in Guernsey are being scrapped. Standby charges currently only apply where the installed power-generation capacity is above 25kW - the equivalent of about 75 standard solar panels. From 1 April any size of renewable energy installation will not have to pay a standing charge.

What are Guernsey's on-Island initiatives?

Alan Bates, CEO at Guernsey Electricity, said: "These on-island initiatives are designed to increase the amount of electricity generated from local renewable sources. The electricity feeds directly into the island's network so that all our customers can benefit from locally generated, clean solar energy."

Where can I send a story to BBC Guernsey?

Follow BBC Guernsey on Twitter and Facebook. Send your story ideas to channel.islands@bbc.co.uk. There are 310 photovoltaic panels on the roof of the newly reopened Grow Ltd headquarters.

The majority of the island's electrical power is imported from France, where nuclear is the prevalent form of generation. However when there is a cable fault or demand exceeds supply, the local power station - which is powered by diesel generators - is needed. Mr Le Tissier also raised concerns about the build of solar panels.

The scheme was launched by Prime Minister Narendra Modi on February 15, 2024. Under the scheme, households will be provided with a subsidy to install solar panels on their roofs. The subsidy will cover up to 40% of the cost of the solar panels. The scheme is expected to benefit 1 crore households across India.

Guernsey solar panels scheme
