Guinea-Bissau is a small state in West Africa, with a population of around 1.9 million, and is endowed with rich natural resources. The country enjoys an advantageous geographical location and is made up of a mainland and a large archipelago (the Bijag&#243;s) consisting of over 100 islands. It has the highest

Publication date: 2016, August Author: CENTURION Description: Guinea-Bissau is as much a frontier oil and gas country as it gets. With an exploration history dating back to the 1960s, discoveries remain elusive. However, new seismic studies and successes in neighboring regions should see the sector pick up pace, as the country recovers from a coup d'&#233;tat that took place ...
