

My strategy is very simple. Hive Power is the main investment. Hive Dollars is a hedge. I go with 90/10 rule or goal. I would prefer to keep 90% of holding in Hive Power and 10% in Hive Dollars. If I didn't believe in the potential of this technology and the network, there would be no reason to be here or hold any Hive or Hive Power.

With experience in tech VC marketing and sustainable venturing, she now serves as a Senior Marketing Manager at Hive Power, an renewable energy AI startup. She specializes in design thinking and user-centric marketing strategies, including brand management, lead generation content, SEO, paid ad campaigns, and event management. In her free time ...

Hive Blockchain is a decentralized blockchain-based content creation platform, that was created as a fork of the Steam blockchain in March 2020. Unlike regular blockchains, Hive is fast, scalable, and powerful. It was developed by the community, like - developers, investors, content creators, and gamers.
