4. Connect Your System. Finally, you need to wire your components together. Connect your battery to the inverter, charge controller, and charging source. Next, connect your home battery backup system to your home's existing wiring using a ...

Many standby generator options in the \$2,000 to \$7,000 range can power a standard American home. But the average generator cost, including installation, is \$9,000. By comparison, a 10 kilowatt-hour (kWh) home backup battery costs about \$8,000 after incentives. If you want whole-home power, you'll probably need more storage than that, though.
