Its total capacity is 16 MW, allowing it to power 9,000 homes. Until 2019, it was the second-largest solar power project in Hungary. It cost nearly 6.5 billion Hungarian forints (almost 20 million USD) and utilizes around ...

As part of the Roshan Gharana Solar Panel Scheme, which is working under the vision of Chief Minister Maryam Nawaz, the government plans to give solar panels to 50,000 houses in Punjab. The Punjab Solar program which is a vital part of a government scheme, gives people who need free electricity without bills, which can be helpful for a longer time.

Just think about it, a 50 MW solar park consists of approximately 170 thousand photovoltaic panels and each panel consists of 60-72 cells. Measuring the performance of the panels is a very serious challenge, however, if the poorer performing solar panel can be localized, it has a momentous added value in terms of operation in the long run.

**Punjab Solar Panels:** The Punjab authorities has launched a enormous photo voltaic panel scheme aimed at assisting households limit their electrical energy expenses and transition to sustainable energy. This initiative is phase of the broader design to fight the rising electricity disaster and promote renewable strength sources in the province.
