

# Innovative energy storage solutions Puerto Rico

Does Puerto Rico need energy storage solutions?

"Isolated from typical supply lines, Puerto Rico needs solutions that reduce electricity costs, improve grid reliability, and accelerate renewable energy deployment," says DEPCOM Director of Energy Storage Nadja Gocek.

Who is developing Puerto Rico's energy grid?

Development is led by Clean Flexible Energy, an indirect subsidiary of AES Corp. and TotalEnergies Holdings USA. A conditional loan guarantee was announced for the project in July. Puerto Rico is aiming to eliminate coal-fired energy generation by 2028 and develop a 100% renewable energy grid by 2050.

What is the Puerto Rico energy Resilience Fund?

The President authorized \$1 billion for the establishment of the Puerto Rico Energy Resilience Fund in 2022 to drive investments in renewable and resilient energy infrastructure on the island. A community benefits plan required by DOE "is being finalized and will be released to the public soon," the agency said.

Our newest product line represents a significant step forward in our mission to provide innovative and low-cost energy solutions." ... CEO of Energy Storage Systems LLC. SAN JUAN, PUERTO RICO, UNITED STATES, March 14 ... from small-scale portable systems for emergency and backup applications to large-scale grid and off-grid energy storage ...
