

# Island power producers Cabo Verde

What is the energy source in Cabo Verde?

Energy generated by wind turbines feeds the national grid on several islands. Cabo Verde offers good and reliable wind resources (18m/s). Solar: Small independent producers are operating in Cabo Verde, and small-scale solar power systems have been installed in some rural communities.

Does Cabo Verde have a wind farm?

Wind: Cabo Verde has relevant experience in the sector, including through a public-private partnership called Cabeolica. Energy generated by wind turbines feeds the national grid on several islands. Cabo Verde offers good and reliable wind resources (18m/s).

What percentage of Cabo Verde's energy comes from imported petroleum products?

Includes a market overview and trade data. Imported petroleum products constitute about 80 percent of Cabo Verde's total energy supply, while less than 20 percent comes from renewable sources, primarily wind and solar.

Why is Cabo Verde a good place for wind power?

The Cabo Verde archipelago is one of the best sites for wind power generation since it is located in the northeast trade winds belt. Wind power was first deployed here in 1994. The government set a target to generate 50% of its energy from renewable energy sources by 2020 and ultimately, 100%. This was due to:

Does Cabo Verde have a photovoltaic power plant?

Excess energy produced in the photovoltaic power plant is used by fishermen for refrigeration purposes. Monte Trigo is the only 100% green village in Cabo Verde. The diesel generator previously used has barely been used since the completion of the project in 2012.

Does Cape Verde have a wave energy potential?

In the case of Cape Verde, there is one study evaluating the wave energy potential which highlights the resource available, particularly for the northern islands, such as S&#227;o Vicente. Unfortunately, the study identifies the wave resource to match that of the wind.

Cabo Verde, an island archipelago of approximately 611,000 people located off West Africa's Atlantic coast, stands out as a stable democracy in a sub-region where several countries have undergone military seizures of power.<sup>1</sup> It routinely ranks among the ...
