

Israel wattsonic battery

Who is wattsonic battery?

Wattsonic Battery shall be one of the few companies who invest a lot into LFP raw materials basic research with around 100 patents owned like standard 10,000 cycles superior LFP battery, low temperature charging LFP technology, high C rate fast charging and discharging LFP technology.

What is wattsonic residential three phase hybrid AIO ESS?

Confidence comes from giant energy. Thanks to innovative battery modular designing and wide range battery voltage input on hybrid inverter, Wattsonic residential three phase hybrid AIO ESS can configure from 6kW up to maximum 20kW with superior flexibility to each project's demand. With intelligent AIO kit, installation difficulty is minimized too.

Is wattsonic Li-LV battery safe?

Low voltage safety connection. Wattsonic Li-LV series battery is a kind of low voltage battery, which means it will be relatively safer than the high voltage product. There is a large power fluctuation on battery charge/discharge.

How long does wattsonic battery last?

Together with multi functions to make the battery more durable, Wattsonic battery can realize 10,000 cycles at 90% DOD and 1C/1C continual charge & discharge. We still have 10 years long standard warranty. Our after-sales person will gladly help you if you have any problems. IP65 protection. Wattsonic battery passed IP65 test.

Who makes wattsonic storage solutions?

The Wattsonic residential and industrial storage solutions are manufactured by China State Shipbuilding Corporation Limited (CSIC), a military factory focus on warship and nuclear submarine with toughest standard quality control system. And we're struggling for technology innovation to move our business success.

Does wattsonic battery pass IP65 test?

Wattsonic battery passed IP65 test. Can protect from total dust ingress. And protected from low pressure water jets from any direction. Superior LiFePO₄ safety performance.
