

Is Bosnia and Herzegovina a good place to invest in geothermal energy?

Bosnia and Herzegovina has a great potential for this energy sector, primarily due to its geographical location and great wealth of underground thermal springs. Geothermal resources of Bosnia and Herzegovina include hydrothermal systems, geo-processed zones and hot dry rocks.

Why should Bosnia and Herzegovina invest in an integrated strategy?

An integrated strategy will provide investors with certainty and predictability, leading to a diversified economy and sustainable jobs creation. "The forthcoming National Climate and Energy Plan will put Bosnia and Herzegovina on the right path to ensure the energy security while improving its long-term resilience to climate change.

What does the renewables readiness assessment mean for Bosnia & Herzegovina?

"The Renewables Readiness Assessment represents an important step in the process of gradual transition from fossil fuels to renewable energy sources on the way to the decarbonisation of Bosnia and Herzegovina's energy sector by 2050, for which we are grateful to IRENA.

Can solar power plants improve biodiversity in Bosnia and Herzegovina?

Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity. Solar energy has a great perspective for the implementation of solar power plants that counts for 70.5 × 10⁶ GWh of irradiated energy per year.

Where is the first solar power plant in Bosnia & Herzegovina?

In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m². Converted solar energy is sent to the Electric Power Industry of B&H. Its annual production counts 150,000 kWh of electricity.

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

When safety, cost, schedule and quality matter I-Star Energy Solutions delivers - time and time again. Highly experienced in a variety of disciplines, we are the first choice in full-service contractors. Locations. Indianapolis Branch; 320 Commerce Pkwy West Dr; Greenwood, IN 46143; P: 936-331-0222;

This Renewables Readiness Assessment aims to support Bosnia and Herzegovina on its path towards

integrating a higher share of renewable energy, and diversifying its national energy mix to align with its ...
