

Italy energy storage projects

Does Italy need electricity storage?

As Italy's energy mix is increasingly composed of variable renewable energy sources, electricity storage will be needed to integrate power generated by renewables into the national grid and make it available when sun and wind energy are not accessible.

How will Italy invest in electricity storage?

Italy will promote investments in utility scale electricity storage to reach at least 70 GWh, and worth over Euro 17 bn, in the next ten years. The new storage capacity will be acquired through tenders published by Terna, the manager of Italy's high voltage grid. The next tender will be released in 2024.

What are Italy's energy goals?

Italy's ambitious energy goals, outlined in the National Integrated Energy and Climate Plan (PNIEC), mark a transformative shift toward renewable energy. By 2030, the country is targeting 28GW of wind power and nearly 80GW of solar capacity, making energy storage essential for ensuring grid stability and maximizing renewable integration.

When will Enel Green Power start building battery storage projects in Italy?

Image: Enel Green Power. Enel Green Power will start building 1.6GW of battery storage projects in Italy this quarter, with the country's utility-scale market expected to soar in the next three years. The renewables arm of multinational energy firm Enel said construction will begin between April and June this year.

How will Italy develop utility-scale electricity storage facilities?

To develop utility-scale electricity storage facilities, the Italian Government set up a scheme that was approved by the European Commission at the end of 2023. Italy will promote investments in utility scale electricity storage to reach at least 70 GWh, and worth over Euro 17 bn, in the next ten years.

Are battery energy storage systems needed in Italy?

Therefore, battery energy storage systems (BESS) are needed in Italy. The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale solar plants, having a capacity of less than 20 kWh.

BESS owner-operator BW ESS and developer ACL Energy have expanded their development pipeline in Italy to 2.9GW. The additional 14 projects totalling 2.5GW of battery energy storage system (BESS) capacity the pair have committed to co-developing builds on the existing 395MW of capacity, spread across three projects, announced in February 2024.

In December 2023, the EU greenlit Italy's energy storage program, earmarking a hefty investment of EUR17.7 billion. This initiative is anticipated to facilitate the construction of over 9GW/71GWh of energy ...

The Terna-Scampitella SANC - Battery Energy Storage System is a 10,800kW energy storage project located in Scampitella, Campania, Italy. [Skip to site menu](#) [Skip to page content](#). [PT](#). [Menu](#). [Search](#). [Sections](#). [Home](#); [News](#); [Analysis](#). [Features](#). [Comment & Opinion](#). ... [Battery Energy Storage System, Italy](#). August 30, 2021. [Share Copy Link](#); [Share on X](#) ...

Final approval has been granted for construction on our 200MW / 800MWh battery energy storage system just outside of Maddaloni, Italy. [What We Do](#). [Solar Battery Storage](#) [Green Hydrogen](#) [Working with Communities](#). [Projects](#). ... [Aura Power has over 20GW of solar and battery energy storage projects in development across Europe and North America](#). ...

Pumped storage: Planning for 1.5 GW in Scotland, new alliance for 500 MW in Italy, progress on 600 MW Scottish project Scottish energy storage company ILI Group has lodged plans for a major pumped hydro facility at a famous Scottish loch. Meanwhile, renewable energy developer Drax has appointed engineering firm Voith Hydro to move forward its ...

Energy Dome has signed a contract with Alliant Energy for a 200MWh long-duration energy storage (LDES) project in Wisconsin, which the US utility considers the "first of many." Italy-headquartered Energy Dome holds the IP for its CO₂ Battery, which essentially stores energy through the adiabatic compression of carbon dioxide.

Policy changes in Italy are expected to have a significant impact on the European energy storage market, potentially leading to changes in local energy storage installations in 2024. Firstly, the decline in subsidies under the ...

The agreement, signed on 28th June 2023, secures Eku Energy exclusivity over 1GW of battery storage projects in Italy. As part of the agreement, Eku Energy is already funding projects with a combined capacity in excess of 100MW in the South of Italy, a region with high levels of renewable penetration and an increasingly congested grid.

Matteo Coriglioni, head of Aurora Energy Research Italy, said official data showed that as of the end of March, Italy had approved more than 2GW of energy storage projects, with another 8GW in the approval process. Aurora Energy Research has a very broad pipeline of energy storage capacity, which is four times what has been approved.

Cubico Sustainable Investments has formed a joint venture (JV) with a local developer in Italy to develop 1GW-plus of battery energy storage system (BESS) projects. London-headquartered independent power producer ...

Enel Green Power will start building 1.6GW of battery storage projects in Italy this quarter, with the country's utility-scale market expected to soar in the next three years. The renewables arm of multinational energy firm

Italy energy storage projects

...

Italy's grid-scale energy storage market is set to be one of Europe's busiest this year, with some 2.6GW/8.9GWh set to come online according to LCP Delta. Large-scale BESS are set to capitalise on significant ...

PV module manufacturer Trina Solar has deployed its first energy storage project in Italy, for its project development arm. Subsidiary Trina Storage has commissioned the 9.3MWh battery energy storage system (BESS) project in Torre di Pierri, Italy, in the province of Taranto, southeast Italy.

Capacity market (CM) auctions have concluded in Italy and Belgium and battery energy storage system (BESS) projects won the lion's share of new contracts. ... Minister of the Environment and Energy Security Gilberto Pichetto has signed a decree allowing Italy to proceed with its energy storage capacity market auction, known as MACSE, in the ...

Three projects in Italy's Lombardia, Piemonte, and Puglia regions. 14 February 2024, ITALY / UK / SINGAPORE - ACL Energy, a Milan-based battery energy storage developer, today announces a joint venture ...

Trina Storage, the leading global energy storage solution provider, has commissioned its first utility storage project, Torre di Pierri, in Italy. The system is developed and owned by Trinasolar's International System Business Unit (ISBU), the global project development arm of Trinasolar, and has seen the two business units collaborate on the ...

Bigolin announced the formation of Innovo Group earlier this year as a consolidation of various renewable energy ventures launched in the UK and Italy. Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in London, 22-23 February 2023. This year it is moving to a larger venue, bringing together ...

Italy, which has always been a pioneer in renewable energy, continues to innovate with BESS (Battery Energy Storage Systems). Enel is leading this revolution with advanced projects both nationally and internationally, thereby contributing to Grid stabilization and decarbonization.

Glennmont Partners from Nuveen ("Glennmont"), one of the world's largest fund managers investing in clean energy, and Exus Renewables ("Exus"), independent renewables asset management and development firm, have agreed to co-develop c.800MW of battery storage projects in southern Italy, with each company co-developing a portfolio of c.400MW of projects.

Developer Emeren has sold two more Italy BESS projects to Matrix Renewables totalling 293MW, bringing the total projects developed and transferred to 1GW. The two projects in Apulia and Lazio are the latest in a ...

Italy energy storage projects

Italy had 650,007 grid-connected energy storage systems at the end of June 2024, according to Italian PV association Italia Solare, with a total of 4.5 GW of rated power. "During the first half ...

Three projects in Italy's Lombardia, Piemonte, and Puglia regions. 14 February 2024, ITALY / UK / SINGAPORE - ACL Energy, a Milan-based battery energy storage developer, today announces a joint venture partnership with BW ESS, an energy storage business dedicated to building, owning, and operating large scale batteries globally, and Penso Power, a London ...

Italy adds 1.74 GW during Jan-Oct, reaches record 12 GWh of energy storage From January to the end of October 2024, Italy added 1.74 GW of storage system projects. Romania opens EUR150 million pot ...

That was the message from the "Unlocking Opportunities in Italy's Energy Storage Landscape" panel discussion on Day 1 of last week's Energy Storage Summit EU in London, hosted by our publisher Solar Media. ... The scheme will award long-term contracts to energy storage projects to make their capacity available to third-party market ...

Cubico Sustainable Investments has formed a joint venture (JV) with a local developer in Italy to develop 1GW-plus of battery energy storage system (BESS) projects. London-headquartered independent power producer (IPP) Cubico has entered into a JV with local developer and consultancy Storatil, with an initial four projects totalling 150MW ...

Transmission system operator (TSO) Terna estimates Italy will need 9GW/71GWh of new energy storage to integrate its growing renewables pipeline, an average duration of just under 8 hours. That duration will be split between battery energy storage system (BESS) and select pumped hydro energy storage (PHES) projects, though even on the BESS ...

Located at Carboluscis" Nuraxi Figus coal mine in Sardinia, Italy, Energy Vault, starting from a first industrial prototype, is developing an innovative hybrid gravity + battery energy storage system to help stabilize Sardinia's power grid. The Miniera d'Energia project will play a crucial role in aiding the Sardinian Government's ambition to transform the decommissioned mine into a carbon ...

The project of Terna on its grids and other projects concerning DSOs' systems are also intended to develop new technologies and facilities that will be able to make Italy one of the most important and attractive markets in the energy storage field.

The number and capacity of utility-scale BESS projects operating in Italy should grow in the coming years with several large systems set to come online in 2023, and Terna recently awarding 1.1GW of capacity contracts to energy storage assets for delivery in 2024.

That is for both the Y-4 auction, for delivery in 2028-2029, and the first Y-1 auction, for delivery in 2025-2026. Some 13 new large-scale projects were selected, including from utility and independent power

producer (IPP) Engie and developer-operators Storm and Giga Storage brings the total BESS awarded CRM contracts to-date to 1.1GW, Aurora added.

Trina Storage, part of Chinese group Trina Solar Co Ltd (SHA:688599), said that it has commissioned a 9.3-MWh battery energy storage system (BESS) in Avetrana, Italy, completing its first utility-scale project of this kind in the country.
