

Jamaica solar turbines san diego

Solar Turbines started as an aircraft company in 1927. The company grew through several wars and the Great Depression. Solar's growth led the company to develop a wide range of innovative products. Today Solar is a key player in the 1 to 39 megawatt (MW) segment of the global gas turbine market, making it a world-class energy solutions provider.

Solar Turbines designs, manufactures and services some pretty cool, high-tech equipment. They had an excellent engineering rotation program for new-grads and many career growth opportunities. The engineering projects were interesting and complex with the high temperatures, stresses, pressures, etc. in a gas turbine.
