

# Japan batteries storage box

Why do Japanese businesses need battery storage?

Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization. Enel X is a global leader in this space, and is a partner of choice for Japanese businesses.

Who owns the battery storage facility in Japan?

Project financing has been arranged by MUFG Bank representing the first battery storage project they have arranged finance for in Japan. Under the offtake agreement, Eku Energy will own the BESS while Tokyo Gas will own 100% of its operating rights for 20 years, with Eku Energy responsible for the ongoing maintenance of the facility.

Why are battery storage projects growing in Japan?

The ramp up of battery storage projects in Japan continues apace, aided by growing subsidy avenues and rising volumes on various electricity markets, from spot to balancing to capacity.

Why is battery storage important?

Battery storage is urgently needed for the renewable energy transition, and is expected to play a huge role in Japan's future power system. Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization.

Why is solar-plus-storage a resiliency solution in Japan?

Japan experiences challenging electricity market conditions due to frequent extreme weather events and natural disasters such as earthquakes, which can lead to power outages." Solar-plus-storage is one of the strongest resiliency solutions in the market. Together, it can provide backup power ranging from several hours to several days.
