

What is Jas energy solutions?

JAS Energy Solutions employees are fully TRACE certified and operate a global compliance program with a zero tolerance policy. Through key sub-contractor selection, assessment, vetting, and management, our system and management support can ensure our clients own trade compliance programs can be met and supported.

Who owns electricity in the Bahamas?

Majority-owned by Emera Inc. Based on average global generation costs for renewable technologies, electricity rates in the Bahamas offer an opportunity for renewable energy to diversify the fuel portfolio and reduce rate volatility.

How will the Bahamas reform its energy sector?

The Government of the Bahamas has discussed plans to reform its energy sector through a partial-privatization of BEC and by introducing regulation-by-contract principles to meet the capacity for future growth, implementing more economically viable renewable energy sources, and modern-izing the energy sector.

How can the Bahamas accelerate its energy transition?

By actively participating in these initiatives and learning from the experiences of its regional neighbors, The Bahamas can accelerate its own energy transition and reap the benefits of a cleaner, more affordable, and more secure energy future. SOURCE:

Will the Bahamas have a solar water heating system?

In the next decade, the Bahamas aims to have solar water heating systems on 20% to 30% of all households, which has the potential of adding 200 GWh of heat for water per year. According to preliminary assessments, wind and solar resources offer the greatest potential for renewable energy development in the Bahamas.
