Will Ganyu LNG terminal be a key role in Jiangsu's economic development?

The Ganyu LNG terminal will play a key role in the province's economic development,said an analyst. The Ganyu liquefied natural gas terminal in Jiangsu province is expected to start operations by 2026 with a maximum annual production capacity of 6 million metric tons,according to China Huadian Corp,whose subsidiary is a co-owner of the project.

How much natural gas does Jiangsu have?

The current installed capacity of natural gas power generation of Jiangsu exceeds 13 gigawatts,making it China's second-largest province in gas power generation after Guangdong. The Ganyu LNG terminal will play a key role in the province's economic development,said an analyst.

What is Jiangsu LNG project?

Huadian said the project will be a major part of the country's natural gas production,supply and storage system. It will be Jiangsu province's major LNG terminal base. The project will further ensure the gas supply in not only Jiangsu province but also the Yangtze River Delta region.
