Where can I get information about Keds services?

The free of charge telephone number 0800 791 00 is available for customers 24 hours per day, where they can get information related to KEDS services. Since the beginning of our operation, the contribution of KEDS to the Kosovar society has never stopped. Among the many projects we implemented are activities within the educational process in Kosovo.

Why is Keds insolvent?

Being a regulated company, KEDS was badly hit financially by the low electricity tariffs. The electricity prices went tenfold on the international stock markets and this made the company insolvent. The fact that Kosovo is a net importer country has also had an impact, as the need for imports increases highly during the winter.

Why did Keds convert to 20 kV?

Facing a continuous demand in electricity consumption each year and a non-adaptable existing medium voltage network to the increasing load in many areas, KEDS converted for the first time in Kosovo the level of 20 kV voltage distribution, which is suitable for high electricity demands in many developed urban and rural areas.

How Keds Academy is achieving success in Kosovo?

Among the many projects we implemented are activities within the educational process in Kosovo. KEDS Academy now has entered another year of operation and is achieving more success every year. In the most industrial village of Kosovo, KEDS is investing 650 thousand euros.

What did Keds do before privatization?

Prior to privatization, network operations were performed manually. KEDS installed the SCADA system for the entire medium voltage network. This complex digital SCADA system enabled remote monitoring, controlling, and data acquisition for the whole distribution network.
