

Kiribati dale power solutions

We're here to keep your power running no matter what, whether you have a single site or a UK-wide portfolio. At Dale, we supply and maintain an extensive range of uninterruptible power supplies (UPS), commercial and industrial generators, and energy storage systems.

Our canopy generator range. Our canopy generators are available between output ranges of 20-3,000 kVA and we have flexible options on fuel sources from diesel generators to hybrid generators as well natural gas, HVO (Hydrogenated Vegetable Oil) and hydrogen.

We are an Achilles Oil and Gas Europe approved supplier (previously FPAL Verify) and have been providing backup power solutions to the marine, oil and gas sectors for more than 40 years. As well as the Erskine industrial, offshore and marine UPS, our dedicated project management, power management and design teams can help with custom built ...

Dale Power Solutions provide open set diesel generators that meet your exact requirements. Help centre. Products. UPS Solutions. Commercial UPS; Industrial UPS; ... Should a standby generator be used for prime power, care should be taken to ensure the generator is inspected frequently and only used for as long as it is required. Lack of usage ...

Industrial UPS. Industrial UPS are specifically designed for critical processes such as an oil rig or power plant but are also suitable for manufacturing when a break in production can be costly. They won't drop the critical load and can tolerate higher temperatures and dirtier environments. Industrial UPS have a design life of 20+ years with a corresponding battery life.

The Future of Erskine and Dale Power Solutions. The relaunch of Erskine will bring back to life a well-recognised brand that has a worldwide reach in its sector - it will further support the expansion of the Dale operations globally.
