

Who owns solar energy in Kosovo?

Building Construction Kosovo L.L.C., which was awarded a licence to produce 1.73 MW of solar energy, is a Kosovo-registered company owned by Maltese-based Solar Power Holding; Alsi & Co Kosova is owned by Maltese-registered parent company Alsi & Co Ltd; Energy Development Group, registered in Malta, is owned by EDG Ltd.

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.

Did a Kosovo businessman sell solar energy in violation of anti-monopoly rules?

A single businessman in Kosovo stands behind six companies reaping millions of euros from the sale of solar energy in violation of anti-monopoly rules, a BIRN investigation has found. Sunlight glinted off row upon row of solar panels stretching into the hills around the village of Madanaj in western Kosovo.

Who built the ERO neighbourhood in Kosovo?

The neighbourhood was built by Merlaku, Bilalli and a third man. According to social media posts, Merlaku regularly goes hiking with Haradinaj. Both Hoti and Rushiti were appointed to the ERO board by Kosovo's parliament in March 2018, when the AAK was part of Kosovo's coalition government and Haradinaj was prime minister.

Who owns Alsi & co Kosova?

Alsi & Co Kosova is owned by Maltese-registered parent company Alsi & Co Ltd; Energy Development Group, registered in Malta, is owned by EDG Ltd. Having tracked the companies to Malta, BIRN paid the standard fee to access each registration in the Malta Business Registry and finally reach the name of the true owner.

It's clear there is a growing need for alternative forms of energy, and with Kosovo's 240 days of sunlight a year, solar is a strong contender. "The potential of solar energy in Kosovo is extraordinary," says Eral Imeri, Managing Director at ESCO, a Kosovar company that analyses, designs, and installs photovoltaic systems.

Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy. In a short time the company Unisolar L.L.C. became a leader in the field of renewable energy in Kosovo and the ...

Arion upset during Diana's departure from BBVK 3's house (Photo: Big Brother VIP Kosovo/) After the conversation with her father, Diana shared her decision with the residents, informing them that she will leave the house and stop her journey in the middle. She has made it clear that she wants to be close to her family at this difficult time.

current state of solar energy in Kosovo while focusing on challenges and opportunities. 8 FOUNDATION The European Union (EU) is set on a transformative journey of becoming the first climate-neutral continent by 2050, within the framework of the European Green Deal.

"Kosovo's transition to green energy is our common goal," said EU Ambassador to Kosovo Tomas Szunyog. "The solar heating plant is the latest EU investment in that direction, but it is far from being the only one. The EU will support the energy transition and sustainable development of Kosovo through another 100-megawatt solar ...

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW ...

Kosovo* hosts just two operational wind power plants and some hydropower and photovoltaic capacities. For comparison, Romania is preparing its first solar power auction for CfDs with a maximum price of EUR 91 per MWh.

From April 22-24, 2024, the House Democracy Partnership and the George C. Marshall Center held a two-day seminar on the role of parliaments during conflict and post-conflict situations with more than 15 parliamentarians from five countries, including Moldova, Georgia, Kosovo, Bosnia and Herzegovina, and Albania.

Supported the development of the National Energy Strategy, which Kosovo's Assembly passed in March 2023. Competitively solicited 100 megawatts of solar energy through the launch of Kosovo's first ever renewable energy auction. Developed a framework for reduced commercial losses at electricity utilities in Kosovo's northern municipalities.

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a capacity of up to 100 MWac (120MWp). By increasing the share and capacity of solar energy in power generation, the project will contribute to energy supply ...
