

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options.

What is a Modula automatic vertical tray warehouse?

Modula automatic vertical tray warehouses allow you to store goods in a clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

What is a Modula automated warehouse?

Modula automated warehouses, combined with our warehouse management systems, are the ideal response to companies' storage and picking requirements, regardless of the industry sector or the type of item to be stored.

Why should you choose Modula storage & picking system?

The Modula storage and picking system can be equipped with additional options for automated vertical warehouses, to make picking more efficient, to make picking and order preparation more efficient, help the operator while picking and refilling, carry out other processes in a more linear way or even improve performance and consumption.

What types of storage options does Modula offer?

Internal and external bays, with single or dual delivery levels, displaced bays, with standard or oversize unit heights. Modula offers a unique range of configurations, so you can choose the ideal type of product for each kind of storage and see which one best suits your needs for space, picking and refilling.
