Why is sustainability a priority in Palestine?

In the State of Palestine, the sustainability transition is a priority because it increases access to energy to empower Palestinian communities, especially marginalized localities who suffer from energy insecurity because of adverse geopolitical reasons.

Is solar energy a reliable source of energy in Palestine?

In Palestine, solar energy is a reliable source of energy due to its high average radiation and sunshine rate per day (Daoud, 2018). Yet, the yearly progress of the solar energy is around 1% only as indicated by the Palestinian Energy Authority (PEA) plan (PEA, 2013). Fig. 1.
