

Laor energy Algeria

Who is Laor energy?

Laor Energy is a multi-disciplined integrator of AC and DC Electrical Power Systems for critical loads. The company was founded in 1993 by its general manager Uri Caspi, who built upon his experience at Israel's leading UPS supplier for over 25 years where he served in design and application engineering, and service manager.

How many people work at Laor energy?

At the end of 2020 Laor Energy employed more than 10 engineering and system design specialists, and had a manufacturing and system's assembly manufacturing plant employing more than 30 workers. The following pages of this site show and explain some of the major systems planned, integrated and supported by our company and affiliates.

Where is Laor energy located?

Laor Energy is located in Kadima, HaMerkaz, Israel. Who are Laor Energy's competitors? Alternatives and possible competitors to Laor Energy may include Samlex America, Magen eco-Energy, and SPP.

How does Laor energy work?

Laor Energy offers its customers complete solutions under one roof from the design stage through production to delivery and follow-on technical support. The production stage is preceded by our in-house engineering after consultation with the customer to understand and define their unique needs.

Does Algeria have solar power?

Thanks to vast desert areas and long sunshine hours, Algeria boasts considerable solar potential. That explains why the country predominantly aims to improve its solar photovoltaic infrastructure to drive the clean energy transition rather than focusing on hydro and wind power plants.

Is Laor energy ISO 9001 certified?

Laor Energy is approved to Standard /AS9100D-ISO 9001 in all areas of its activity and in addition the company is approved by the environmental authorities in everything related to storage, transportation and installation of battery and dangerous materials. Laor's headquarters is located in Kadima in the center of Israel's hi-tec companies.
