Solar irradiance levels in the Lao PDR are between 3.6 - 5.5 kWh/m² per day. With this technical capacity, solar power has the potential to play a major role in providing off-grid electric power for remote rural areas.

Instead, it can be brought straight to you, no matter the location or how much power you need. This is the future that here at Gensystems we are creating with mobile generators. These generators, like the Jereh Power2Go 6MW, are essentially self-contained power plants that can run on various fuels and deliver reliable electricity at any location.
