

Laos zebra battery

This battery was invented in 1985 by the Zeolite Battery Research Africa Project (ZEBRA) group led by Dr. Johan Coetzer at the Council for Scientific and Industrial Research ...

The case of the ZEBRA battery. One of the solutions to the energy crisis was the development of the ZEBRA battery (Ze olite B attery R esearch A frica) based on molten salt, first studied by South African ...

The ZEBRA battery is a type of rechargeable molten salt battery based on commonly available and low-cost materials - primarily nickel metal, the sodium and chloride from conventional table salt, as well beta-alumina solid electrolyte. It is technically known as the sodium-nickel-chloride battery, and sometimes as a sodium-metal-halide battery. The common name comes from its developmen...
