What is the 4th large scale solar Central & Eastern Europe Summit?

Welcome to the 4th Large Scale Solar Central and Eastern Europe Summit, returning to Warsaw this November. This premier event is a key platform for fostering critical collaborations between developers, IPPs, utilities, investors, and technology providers involved in advancing solar initiatives across the entire region.

What happened at the large scale solar central and Eastern Europe Summit?

The Large Scale Solar Central and Eastern Europe Summit returned in 2023 as the region continues to grapple with decarbonisation targets and energy security requirements.

How many solar PV projects are there in Spain?

Independent power producer (IPP) Aquila Clean Energy has connected 210MW of solar PV across five projects in Spain. Masdar and the Albania Power Corporation (KESH) have announced plans to build a "gigawatt-scale" renewable power portfolio in Albania.

Which countries have surpassed 1GW of solar PV in 2022?

Nations such as Bulgaria, Romania, and Czechia- which previously collectively totalled 1GW installed capacity in 2022 - have now each surpassed 1GW of installed solar PV and are set to grow even further. Poland still leads the region in installed capacity, with an expected forecast of 58GW by the EU's 2030 target deadline.

What makes Longi a great solar company?

LONGi supplies more than 30GW of high-efficiency solar wafers and modules worldwide yearly, about a quarter of global market demand. LONGi is recognized as the world's most valuable solar technology company with the highest market value. Innovation and sustainable development are two of LONGi's core values.

What is a GoodWe solar inverter?

With a total of over 4 million inverters delivered and 71.2 GW installed in over 100 countries, GoodWe solar inverters have been used in residential and commercial rooftops, industrial and utility scale systems and range from 0.7kW to 350kW.
