Signing with Elgin Energy was the best thing we ever did, which in turn has helped significantly with our expansion plans for the farm. It has brought us an income stream which has helped the farm through the difficult times and will provide stability for the farm's future.

How will Daugavpils power plant work?

The electricity produced by one of the Daugava hydroelectric plants must travel through long cables to reach Daugavpils or the Upper Daugava region. But this power plant will be very close, and practically everything produced at the station will automatically reach Daugavpils consumers and companies immediately," Pl?me said.

Abstract : This thesis provides research on the largest Latvian military formation to serve Nazi Germany from 1943 until the end of World War II. As the most decorated non-German Waffen-SS formation, it fought from the outskirts of Leningrad to the defensive lines of Berlin. However, it also has become a focal point of heated contemporary discussions ...

At the end of World War II, Estonia, Latvia, and Lithuania vanished behind the Iron Curtain -- the only

countries wiped off the map after the war, illegally annexed by the Soviet Union. They disappeared from public discourse and awareness. The hunt for Nazis wiped away that anonymity. Starting in the 1960's, Soviet propaganda targeted their most troublesome ...
