What is MTU standby power?

mtu standby power solutions are engineered to maintain an uninterrupted flow of power in the event of a utility outage or grid failure. Our highly efficient continuous power solutions provide primary power for your operation. When used as part of a combined heat and power system (CHP), you receive the highest efficiency from your system.

Does MTU offer a generator?

MTU offers a line of generators to accommodate these needs. The power generator is a complete system mounted on a skid. However, it does require fuel and exhaust connection from the building. Because of the hard-piped connections, these are often termed permanent installations. We keep an inventory of MTU generators.
