

Lightleaf solar panel Monaco

What is a lightleaf solar panel?

Rigid and lightweight fixed mount solar to power any mobile project. LightLeaf Solar panels are engineered to enhance your outdoor experience. Our leading-edge technology combines rigidity and functionality, with an unbending foundation of carbon fiber strengthening every panel without any sacrifice. "We love this solar panel so much.

Why should you choose lightleaf solar panels?

LightLeaf Solar panels are engineered to enhance your outdoor experience. Our leading-edge technology combines rigidity and functionality, with an unbending foundation of carbon fiber strengthening every panel without any sacrifice. "We love this solar panel so much. It's incredible to be able to maintain a full battery.

Where are lightleaf solar panels made?

LightLeaf Solar panels are built to withstand anything from harsh winters to rough seas. Our solar panels are designed and manufactured in Canada, using quality materials sourced from throughout North America. This is our general (g=general) panel. These panels are manufactured without any clamps, hardware, or kickstands.

Do lightleaf solar panels come with a controller?

Our panels do not come with controllers, but an MPPT solar charge controller is required. These protect and efficiently charge your battery system. The solar panel should never be connected directly to a 12V battery. We are partnered with many trailer manufacturers who provide LightLeaf Solar panels as an option.

How heavy are lightleaf solar panels?

Our panels are 1/4 the weight of standard glass panels and just 8mm thin. They are a breeze to haul around, weighing a mere 5 pounds. Thick, tough, scratch-resistant polycarbonate and carbon/foam construction stands up to abuse. LightLeaf Solar panels are built to withstand anything from harsh winters to rough seas.
