Lithuania expects electricity consumption to grow more than six-fold by 2050, from the current 12TWh demand to a projected 74TWh. In order to achieve the goal of 100% carbon neutrality by 2050, the Lithuanian Parliament believes that by 2030, the country will have the potential to add 5.9GW of onshore and offshore wind power, 4.1GW of solar power, 1.5GW of energy storage, ...

Hercules Solar Carports are designed to be easily retrofit into new or existing areas. They are designed and shipped to fit precisely into the environment adding an elegant and multiuse solar structure. Installation is made super simple by utilizing a pre-assembled leg system and pre-cut beams. Each system is designed to be erected with zero cutting and minimal parts count.
