

Lundsby renewable solutions Lebanon

Who is lundsby renewable solutions?

As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂ neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants. We cooperate with different suppliers of upgrading plants for the supply of biomethane for the natural gas grid.

Why should you choose lundsby renewable solutions?

Plants that also contribute to sustainable use of organic waste and a better aquatic environment. As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂ neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants.

Why did lundsby renewable solutions change its name?

In 2022, the name changed into Lundsby Renewable Solutions, one of the reasons being the intention of exploiting the company's international potential to the maximum. Lundsby has more than 25 years of experience with designing and building turnkey biogas plants.

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years of experience with developing and providing efficient biogas plants.

Lundsby Renewable Solutions A/S (Lundsby) have signed an EPC contract for the design and construction of a 133 GWh biogas plant in Borlänge, Sweden for our customer, Gasum. The plant will at full capacity be converting approximately 300.000 tons of green sustainable feedstock - agricultural and industrial organic waste - into approximately ...

We are excited to announce that Lundsby Renewable Solutions will be participating in the ninth Nordic Biogas Conference (NBC) on October 22nd-23rd, 2024, in Aalborg, Denmark. This event brings together key players in the biogas industry to discuss and shape the future of renewable energy in the Nordic region. Representing Lundsby at the ...
