

Does Luxembourg pay for solar panels?

In Luxembourg, many financial incentives offer to reimburse the cost of installing solar panels. What's more, you can opt to consume the energy produced by your panels yourself, and thus reduce your energy bill. How do you install panels on your roof? How does the installation work? What assistance is available in Luxembourg?

How can Luxembourg encourage the adoption of solar energy?

To encourage the adoption of solar energy, the Luxembourg government has set up a range of grants and subsidies that make the installation of solar panels even more attractive. The programme Klimabonus offers to reimburse up to 62.5% of the cost of the photovoltaic installation for self-consumption contracts.

Are photovoltaics redefining the energy future of Luxembourg households?

We are redefining the energy future of Luxembourg households, offering the most advanced technologies and efficient solutions in the field of renewable energy. Photovoltaics represent savings, ecology, and an investment in your and your family's future.

Where to install solar panels in Luxembourg?

Ideally, choose a company "Made in Luxembourg" and approved by the Klima agency to install your solar panels. We work with the most serious and reputable companies in Luxembourg for the installation of solar panels. If you would like a quote for your project, request a free quote.

How much does a C&I solar project cost in Luxembourg?

Luxembourg has kicked off its second tender for C&I solar projects ranging in size from 30 kW to 5 MW. It is offering rebates of up to EUR745 (\$835) per kilowatt installed and up to 55% of the total cost of buying and installing systems. Luxembourg has selected 75 solar projects in the nation's first procurement exercise for self-consumption.

How much does electricity cost in Luxembourg?

For example, for an installation of up to 10 kWp completed in 2022, the Luxembourg government will buy back your electricity at the same rate for 15 years, i.e. 0.1506 per kW/h. As a quick comparison, in France, these prices are re-evaluated every quarter and are set at EUR 0.1493 per kW/h in October 2021.

*The kilowatt-peak (or kWp) is the unit of measurement used to assess the power attained by a solar panel when exposed to maximum solar radiation. Do you need advice? An advisor is available in every region of the Grand Duchy to offer you his services and his well-informed advice about insurance solutions:

Financing of solar power plants by Sudstrom Sudstrom positions itself as a producer of renewable energy in Luxembourg by fully finance solar plants over 200 m² of roof space or car parks with more than 70 spaces.

Luxembourg solar power buy

Others offer green 100% electricity produced in part at regional power stations: In its most expensive offer, for example, Enovos claims that 50% of its energy comes from regional power stations in Luxembourg. These renewable energy plants are mainly wind or solar farms, hydroelectric dams and biomass plants.

The grand duchy has bucked the global trend by raising its solar subsidies. The Luxembourg government has raised feed-in tariffs for PV power generators. For installations with a generation capacity of less than 10 kW, the feed-in tariff will rise 36% to EUR0.165/kWh and all installations below 500 kW are set to benefit from an improved regulatory framework.

My partner and I are looking for a reputable company that can install solar panes on our roof. This year seems to be a very good one as the Government has quite a few subsidies. Everyone we call they are either booked or the wait time is 12-14 months. We found a company that was super quick and they came by extremely quick compared to the others.

Luxembourg solar power buy

In addition, thanks to the ALMA SOLAR application, you can finally automate actions related to solar power and your home battery.
