DETAILS: Residential:

Having an AIMS Power inverter is imperative in St. Lucia, because building a backup power system is so essential if living on the island.. St. Lucia electricity is 240 Vac 50 Hz, but power outages are common due to extreme tropical weather and electrical systems that can be unreliable. AIMS Power inverters, inverter chargers, solar panels and other electrical system ...

It isn't just the star that pulls on the planets: the planets pull on each other, and the star too. This game simulates a solar system by adding up all the pulling for a single moment in time. It then calculates the resulting tug on each object, moves them, and repeats. By doing that many times a second you can see how your solar system evolves.

Sol-Lucian is a Saint Lucia based Electric Solar Renewable Energy company that has developed a bold approach to reducing the cost of electric utility, through the provision of products and services that include installations of GRID-TIED and STAND-ALONE photovoltaic (PV) systems. ...
