As a global medium-voltage solution, the Sunny Central UP is the core of our turnkey system for PV power plants. It has been developed for worldwide use and complies with the highest international security standards. The Sunny Central UP Plug & Play System combines central inverter, transformer and storage solution in a compact unit.

SUNNY CENTRAL STORAGE UP SUNNY CENTRAL STORAGE UP Battery inverter for large-scale storage systems With an output of up to 3960 kVA and system voltages up to 1500 V DC, the SMA Sunny Central Storage allows for more efficient and flexible system design for battery power plants. A separate voltage supply and additional space are available

Maldives sunny central storage up

An important characteristic of the Sunny Boys is that they feature the international SMA grid guard interface. This ensures maximum reliability when operating the solar power system, and enables electricity to be fed into public grids ...

The Sunny Central Storage UP battery inverter stores energy in high-voltage batteries and makes it available as required. It can be used flexibly in both PV and hybrid systems. Its intelligent OptiCool cooling system ensures smooth ...
