Minneapolis, MN - Today, National Grid Renewables announced the start of construction on its Unbridled Solar project (Unbridled) located in Henderson and Webster Counties, Kentucky. At 160 megawatts (MW), Unbridled is anticipated to be the largest producer of clean, solar energy in the state once it reaches operations in 2024.

Morocco exploits land, air and sea in Western Sahara despite having no sovereignty over it. Western Sahara is connected to the Moroccan grid via the capital Laayoune. A new 400kV power connection is planned between Laayoune and Dakhla, and to Mauritania. Through this power-line, Morocco plans to export renewable energy to West Africa.

In 2008, MasTec, Inc. acquired Wanzek, providing continued growth and synergy in Wanzek's future. Wanzek is a platform company within the MasTec Clean Energy & Infrastructure Group but retains its name, culture and operating structure.
