

Envisaged for implementation in a series of stages, the first 25 MW of solar-PV based capacity is expected to be operational before the end of this year, according to Sohar Port and Freezone. "SOHAR Freezone has joined forces with Shell, who will develop up to 300 MW of renewable energy, adding economic value to Oman and our industries.

The Qabas solar project, launched by Oman Shell, comprises 88,000 solar panels and generates 25 MW, the equivalent of powering 10,000 homes. The aim is to assist in facilitating cost-competitive solar power to companies based in SOHAR Freezone and help them to reduce their carbon emissions.

Once the project constructed, it will be the oman's first commercial-scale solar PV plant in Sohar Port and Freezone. As per Shell Oman, Qabas Solar PV Plant has been launched with initial Capacity of 25 MW for development in Sohar Port. The output of which will be utilised by a major ferrochrome project in operation at the adjoining free zone.

SOM has more than 180 Shell retail sites in Oman. Sohar Solar Qabas (FZC) LLC represents Shell's investment in the solar energy sector in Oman. Country Financial Analysis. The statutory corporate income tax rate in Oman is 15%. Shell's downstream activities are taxable at this rate.

Sohar, Oman - Today, Oman Shell launched the 25-megawatt Qabas solar plant, helping the port and freezone in Sohar to become more sustainable and demonstrating the commercial benefits of solar power for industrial purposes. Owned by Shell, Sohar Solar Qabas is the company's first utility scale, photovoltaic (PV) solar project in the Middle ...
